EXCO regards the quality as its life. Each product has been examined precisely. It has passed TS16949:2009 International Auto Industry Management System, by German TUV

EXCO regards the quality as its life, and actively carries out the total quality management. It has set up a set of strict quality control system, has introduced the high-end precision instruments from home and abroad, and has manned with professionals. By strictly implementing the production process, from IQC, IPQC, through FQC each step is made seriously. Each product has been examined precisely. By choosing the quality 3M materials from USA, it ensures the stability and reliability of each offering. By introducing the 6S site management and visual management, it has passed ISO9001:2008 quality system certification and TS16949:2009 international auto industry management system by German TUV.
